School Transformation Process

The School Transformation Process helps schools or school systems systematically reflect on, plan, and implement reform.

It does this by providing six lenses to examine important issues and steps. This entire process is cyclical with insights enabling continuous improvement.

microsoft.com/education/leaders

Insight

To guide continuous improvement, schools reflect on their experiences to their school's benchmarks and success metrics.

Introspection

A team of teachers, students, parents and school leaders collaborate to define a vision, core values and goals.

Microsoft

Inquiry

in teaching, learning, assessment and school design to discover possibilities for change.

Implementation

Schools focus on creating and implementing their plan for change.

Innovation

Schools decide on the innovations – in curriculum, pedagogy, leadership, technology and learning space design – that will bring about their vision.

Inclusion
